## Experience

### ○ March-2023, Present

BetaLabs, Lahore

#### Intern

- Part of Developing team to make Websites.
- Website building using Bootstrap, HTML, CSS.
- Building portfolio's for different clients.
- Built an Single page E-commerce Website using React.
- ReactJS, Redux, Hooks(useState, useEffect), Routers.

### ○ May-2021, May-2021

CBSol, Lahore

#### Intern

As a React intern, my role would involve working with the React library to build user interfaces. Over the span of three months, I would gain hands-on experience and expand my knowledge in React fundamentals, component development, and state management. I would learn about core concepts such as components, props, state, and lifecycle methods. Throughout the internship, I would have the opportunity to develop various React components, focusing on creating reusable UI elements and managing state. This experience would help me enhance my skills in building complex user interfaces and contribute to React projects effectively.

## Projects

- Ecommerce Website using Reactjs & Redux.
- Spotify Clone using ReactJs.
- Todo App using ReactJs.
- Quiz Generator using ReactJs
